EXPERIENCE

Blu Frame, Technical Sales Specialist (2026) - digital services **consultancy** (web, backend, cloud, AI)
- Run discovery calls and handled UK public-sector tender (GBP 100K-3M).
- Built an internal lead engine (Bright Data + Claude CLI) that sources, scores and tiers prospects.
- High-volume cold calling, **25%** average conversion to discovery calls.

Petville Global, Deputy Chief of Staff (2023-2024) - pre-seed B2B CRM / vet-tech SaaS (Founder Institute)
- Drove **client acquisition**, bringing pet businesses and vet clinics onto the platform.
- Set the product roadmap and decided which features to build.
- Worked in sales (**30%** average close rate), **technical product demo** and **operations** in a founding team.

PROJECTS

Matteca - AI personal operating system (Next.js, React Native, Supabase, Paddle, PostHog)
- Full-stack All in one life-tracker for work, health, finance and more; log by text, voice or AI parsing.
- Built an **MCP-based AI layer** and re-architected payments to cut cost.
- **200** unique monthly **visitors** purely from SEO and AEO ; **OAuth** into Notion, Jira, google cloud and more.

Yornews - AI news platform (React, Express, Neon Postgres, Groq)
- Personalized news from multiple API; users type preferences in plain English and AI turns them into structured queries.
- Delivered as a niche dashboard feed and an email newsletter.

Kidos AI - kid-safe AI chatbot (React, Vercel , Groq)
- Kid-safe chatbot with dual content-safety filtering.

Dashubs - back-end developer

- Designed the back-end schema for the Dashubs iOS app.
- Built and shipped a live Wix marketplace site.
